Harrold's Pedigreed Giant PANSIES -

We present here the most popular and commercially useful Pansy Varieties from the Harrold's Pedigreed Strain Line. This, however, is but a part of the world's most extensive selection of Pansies. Because of limited space, this condensed list is mostly for pricing purposes. For more complete descriptions and much other valuable information about our Pansies, see the 1959-1960 catalogue sent to you last August. If you have mislaid your copy or did not receive one, please let us know and one will be sent at once.

Harrold's Pedigreed Giant PANSIES -

Again we bring to your attention the superior, world known line of HARROLD'S PEDIGREED STRAIN PANSY SEEDS. This is the most complete selection of Pansy and Viola Seeds available from a single source in the world today and it is a line affording many outstanding, exclusive originations that you will find both useful and interesting. We mention here, only a small number of the most popular items; those which you may wish to order quickly for early planting and those that are in supply for early shipment.

OUR COMPLETE 30 PAGE CATALOGUE

Last August we mailed this catalogue to all professional and trade firms on our regular mailing list. Some 10,000 throughout the world. This was the 1959-60 edition and it will apply to sales this year until the new issue is ready in late July. Look it up and use it to order from or order from this folder. If you have misplaced the catalogue or did not receive one and wish to place an order after seeing it, ask for a copy on your business letterhead and it will be sent to you promptly. You owe it to yourself and your customers to give this outstanding line a full examination before placing your order for planting this summer. All firms of record will receive the new edition as soon as it is ready. We are setting the July date so as to include stock changes and new things after harvest potential is better known.

PREFERRED THE WORLD OVER

HARROLD'S PEDIGREED PANSIES have been available to the American trade for well over half a century. They are preferred by many of the world's most critical growers. We have recently supplied seeds to several of the most outstanding American Show Gardens, Arboratums and Famous Public Parks and Private Estates. During June we have sent seeds to Caracas, Venezuela; Hong Kong, China; Cape Town, South Africa; Geneva, Switzerland and Budapest, Hungary. It will be noted that many of these locations are in areas where Pansy seeds are grown, easily obtained and where prices are much lower than in the United States. This certainly attests to the quality and value of HARROLD'S PEDIGREED STRAINS when they are used in preference to more easily obtained local seeds.
